

DESCRIPTION: This procedure allows the user to retransmit a locally processed settlement entry to the host system. To retransmit, the user must be logged onto DMV Select.

At the DMV Select Main Menu:

1. Select "Settlements" from the top tool bar. The "List Settlements" screen will display.
2. Select the settlement you want to re-transmit. The "Maintain Settlement" screen will display.
3. Select "Re-Transmit" from the top tool bar.
4. The message Settlement #xxxxxxx processed will display.
